Guest Guides and Walkthrough Videos

PDF Guest Guides

Over the past year, we've been working on the most informative how-to guides for all of rental classes we have in the fleet. The guides include general information about campsite rules, road conditions, driving safely, and details section-by-section operational instructions for every system inside and outside the RVs.

There are three PDF files that can be viewed online and downloaded prior to departure. The files are always up to date and are available on our website:

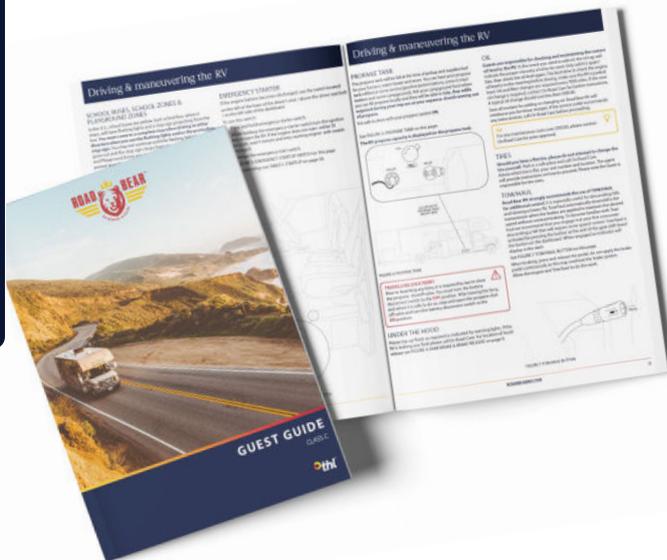

www.roadbearrv.com/guides

Walkthrough Videos

All of our units come equipped with a helpful orientation video guide that is available on a QR code found near the control panel. Additionally, you may view the general orientation video guide via the same QR code. All files will be translated to most common languages spoken by our guests.

The videos can be viewed online or downloaded prior to departing our location as well as during the online check-in. Our friendly crew members will point out the QR codes during the pickup process.

Wi-Fi is available in the branches in case you won't have service during the trip on their mobile devices.
